Summary

Full Stack JavaScript Engineer with 3+ years of professional experience designing and developing scalable web applications, REST APIs, cloud-native microservices, and Generative AI solutions (Autonomous AI Agents & Hybrid RAG architectures). Proven expertise in **React/Next.js, Angular, Node.js (NestJS/Express)**, combined with intelligent agent orchestration using **LangGraph, LangChain, pgvector**, and DevOps/Cloud practices with **Docker, Kubernetes, Terraform, and AWS/Azure**. Passionate about Clean Architecture, AI innovation, and delivering robust software within agile international teams.

Education

- **Higher Institute of Information and Communication Technologies** — ISTIC, Borj Cedria
  Bachelor's degree in Computer Science — *Sep. 2016 – Aug. 2019*
- **TEK-UP private higher school of technologies & engineering** — TEK-UP, Ariana
  Web & mobile development engineering — *Sep. 2019 – Oct. 2022*

Experience

- **Auto Inspec**
  Full Stack Developer — *Jul. 2026 - Sep. 2026*
  • Engineered a full-stack vehicle inspection platform using **Next.js, NestJs, Prisma, PostgreSQL**.
  • Implemented multi-stage **Docker** containerization to standardize development and production environments, eliminating environment discrepancies and speeding up setup.

- **IB Consulting : Freelance**
  Full Stack Developer — *Oct. 2025 - Dec. 2025*
  • Fixed and improved a responsive car rental web and mobile application using **Angular, Ionic, and Node.js** featuring real-time vehicle booking and availability tracking.
  • Configured an operational production environment using **Nginx** reverse proxy and **Docker**, streamlining multi-container orchestration and request routing.

- **WOLO** — North Urban center, Tunis
  Full Stack developer — *Jan. 2024 - Dec. 2024*
  • Developed with **Angular** an Energy Monitoring platform to monitor renewable energy assets.
  • Designed and implemented secure REST APIs using **NestJS**.
  • Containerized the application with **Docker**, reducing onboarding time and ensuring consistent deployments across development and production environments.

- **Tawa Digital SA** — Lac 1, Tunis
  Full Stack developer — *Feb. 2022 - Jul. 2023*
  • Engineered a real-time social media analytics dashboard, boosting influencer marketing workflow efficiency by 30% using **ReactJs/NextJs**.
  • Architected secure RESTful microservices for the central Admin Manager platform, reducing API payload sizes and optimizing server response times using **NodeJs/Express**.

- **I Connect Service** — Parc Technopole Mannouba, Tunis
  Backend developer Trainee — *July 2021 - Sep. 2021*
  • Implemented secure RESTful APIs utilizing **Spring Boot** and **Spring Security**, configuring token-based authentication and endpoint authorization.

- **I Connect Service** — Parc Technopole Mannouba, Tunis
  Frontend Developer Trainee — *July 2020 - Sep. 2020*
  • Developed reusable UI components using **React**, integrating REST API data fetching and state management for responsive mobile web views.

- **Xtend** Centre urbain nord, Tunis
  Web Developer Trainee *Jan 2019 - April 2019*
  - Implemented secure RESTful APIs utilizing **Spring Boot**.

Certifications

- **Oracle Certified Associate, Java SE 8 Programmer**: April 2021 – without expiration date : An Oracle Certified Associate, Java SE 8 Programmer has demonstrated knowledge of object-oriented concepts, the Java programming language and general knowledge of Java platforms and technologies.
  https://www.credly.com/earner/earned/badge/2c21f38e-9fc3-464f-b8bd-a1217d607fea
- **Oracle Certified foundations Associate, OCI AI Foundations**: April 2025 - April 2027 : An Oracle Certified foundations Associate, OCI AI foundations has demonstrated knowledge of how to distinguish between artificial intelligence, machine learning, and deep learning for real-world applications, gain the ability to efficiently choose the best OCI AI service for a specific need and knowledge on the fundamentals of Generative AI and LLMs.

Courses

- **TechWorldWithNana - GitLab CI/CD - From Zero To Hero**: Oct. 2024 – Nov. 2024 : A Complete GitLab CI/CD Course with Docker — Kubernetes — Microservices. Learn how to build production-ready CI/CD pipelines in one comprehensive practical course, Set up self-managed GitLab Runners, Build and deploy containers with Docker Compose with Multi-Stage Pipeline with best practices.
  https://gitlab.com/ahmedoun199/mynodeapp-cicd-project
- **OpsForAll - Github Actions CI/CD - Terraform - AKS AZURE**: Feb. 2026 – Mar. 2026 : A production-ready Terraform infrastructure-as-code (IaC) project for deploying and managing Azure Kubernetes Service (AKS) clusters on Microsoft Azure. The project automates the complete provisioning of a highly available, scalable, and secure Kubernetes infrastructure with optimal networking, container registry, and security configurations.
  https://github.com/ahmed3oun/azure-aks-project

Projects

- **AI Agent & Hybrid RAG Platform**: Designed and developed an end-to-end AI assistant using **GoogleGemini, LangGraph, LangChain, PostgreSQL/pgvector, NestJS, Prisma, Next.js, Zustand, Docker, Turborepo.**
  https://github.com/ahmed3oun/ai-agent
- **Azure AKS Project**: A production-ready Terraform infrastructure-as-code (IaC) project for deploying and managing Azure Kubernetes Service (AKS) clusters on Microsoft Azure. **Azure, AKS, ACR, VNet, NSG, Terraform, Docker, Kubernetes, Github Actions.**
  https://github.com/ahmed3oun/azure-aks-project
- **Ticketing Microservices Platform**: Built an event ticketing system utilizing **mongoDb, mongoose (ORM), redis, NATS streaming (Message broker), Docker, Kubernetes, ingress-nginx, Terraform, AWS, Github Actions and Stripe** API integration to handle concurrent user checkout flows with event-driven management.
  https://github.com/ahmed3oun/ticketing
- **Bookmark management application**: Develop a full stack application with Typescript including authentication (passport.js) + bookmark crud using **Angular16, NestJS, PostgreSQL, Prisma, Docker** .
  https://github.com/ahmed3oun/bookmark-management-nestjs
- **Note board application**: Develop a Fullstack app **NextJs, NestJs, Socket-io, firebaseAuth, firestore** .
  https://github.com/ahmed3oun/note-board-app
- **E-commerce site** : Develop an e-commerce site (authorization and roles + authentication with JWT) using **React, Redux, NodeJS, MongoDB** .
  https://github.com/ahmed3oun/shop-IT

Programming Skills

- **Languages**: Typescript, Javascript, Java8+, Python
- **Technologies**: ReactJS, NextJS, Angular, NodeJS, NestJS, Spring boot, Docker, Kubernetes, AWS, Cloud computing, PostgreSQL, MongoDB, Terraform, Github Actions, Gitlab CI/CD, WSL.
